25X1

1. A radar station is located on the northern edge of the village of Janovice nad Uhlovou (N 50/U 99) about 100 yards east of the Uhlava River and 20 yards west of the Janovice - Klatovy district road. The site is roughly due east of the Janovice railroad station.
2. The radar equipment on the site is on two trailer trucks. A radar reflector can be seen on the roof of each, with aerials inside the reflectors. The reflectors are about two meters in diameter and 0.5 meter in depth. A detector pole or needle projects from the center of the bowl, protruding about 0.6 meter. The detector has a small disc on its end.
3. The equipment is serviced by a crew of four soldiers, probably from the Border Guard (PS) unit in Janovice. The soldiers are billeted in barracks at Janovice.
4. The radar station has been at this location since June 1950.
